

Team 7 - Meeting Minutes

Project: Web-Based Language Scavenger Hunt Game

Meeting Date: Tuesday, October 6

Next Meeting: Thursday, October 8 (weekly check-in with TA and prof)

Attendees: Gamuchirai Mhere, Madiba Burks Magara, Ashish Nayak, Dan Rukundo

Agenda

Review changes made to the proposal after this week's feedback, rebalance the workload, and assign this week's Milestone 1 tasks.

Proposal Updates

- Removed the AI chatbot feature
- Removed Firebase Authentication
- Changed the database to PostgreSQL (authentication is now built by us and stored in PostgreSQL)
- Fixed typos throughout the proposal
- Redistributed workload so it is balanced across the team

Action Items — Due Saturday, October 10

#	Task	Details	Assignee
1	Student accounts (#32)	Students can sign up with a unique email, username, name and student number. Duplicate emails are rejected.	Madiba
2	User login (#33)	Students, teachers and admins can log in. A session is created, and a wrong password gives "invalid credentials".	Ashish
3	Password reset and change (#34)	Users can reset a forgotten password through their registered email and change it when logged in. Unknown emails get a generic message.	Madiba
4	Secure credential storage (#35)	Passwords are saved as secure hashes, never as plain text. A wrong password fails when compared to the hash.	Gamu
5	Teacher accounts (#36)	Teachers can sign up only if their email is on the approved list. Others get "Error, unauthorized account".	Dan
6	Logout (#37)	Logging out invalidates the session token. Reusing an old token returns "unauthorized".	Ashish
7	Admin reassigns classes (#42)	Admins can move a class to a different approved teacher. Student data stays unchanged. Emails not on the approved list are rejected.	Gamu
8	Admin adds approved teacher	Admins can add emails to the approved teacher list. Non-admins are rejected with	Dan

#	Task	Details	Assignee
	emails (#41)	"unauthorized".	

Notes

- Each task needs functionality code in src/ and tests in tests/, in small PRs (under 10 files and under 500 lines).
- All PRs should be reviewed and merged by Saturday, October 10.
- Some tasks depend on each other (for example, login needs hashed passwords, and teacher signup needs the approved list). Message the owner of the related task before editing their code.
